Entire Tech Awarded for Sustainability

Entire Tech, a locally-owned and operated technology enterprise based in Myaree, was recently awarded the Switched On Business Award by Switch Your Thinking – a local government initiative based in Perth, Western Australia.

The West Australian-based company, which celebrated its 20th year in business last year, was awarded the accolade for the company's outstanding commitment to sustainability and its impactful contributions towards creating a more environmentally-conscious business landscape.

Switch Your Thinking was impressed with all the efforts to reduce their environmental impacts and foster a culture of sustainability within their team, particularly in the areas of reducing energy use, reducing carbon emissions, reducing waste and water use, and increasing recycling and upcycling.

"We are deeply honored to receive the Switched On Business Award," said David Locke, Managing Director. "We believe that businesses have a pivotal role to play in addressing climate change, fostering a sustainable future and creating a sustainable and eco-friendly workplace."

Entire Tech was also recently awarded the Charge Up Workplace Grant (Round 1) to assist in funding the installation of 3 EV charging stations at 17 Hulme Court and has converted their fleet vehicles from hybrids to all-electric cars. The company sees this achievement as a shared victory, acknowledging the importance of building a community that values a collective vision for a better, more sustainable world.

You can find out more about Entire Tech's win and their various sustainability improvements on Switch Your Thinking's blog here: <https://switchyourthinking.com/entire-tech-celebrated-for-sustainability/>

Switch Your Thinking is an initiative of the City of Armadale, City of Gosnells and the Shire of Serpentine Jarrahdale working together since 2002 as the South East Regional Energy Group (SEREG).
